ATTACHMENT A: SPECIFIC RECORDS AND DATA ELEMENTS

Please specify:

- **study sample.** Identify which school sites and which groups of students and/or staff (grade levels, program participants, etc.).
- **dates of data.** Identify the specific time periods on which you need the data.
- **specific fields requested** (i.e., student name, date of birth, ethnicity, gender, primary language, etc., NOT “demographic data”). Include a rationale explaining its purpose and use. Please distinguish between variables that are critical to the analyses and variables that could be useful, if available, for adding more nuance to the findings.
- The method of secure transmission of the Data and the location/address where the data is to be transferred.

For longitudinal, multiple-cohort analyses, you may want to include a table clearly identifying the years of data needed for each cohort.

If it is necessary to link administrative data with other data obtained separately by the research organization, please describe the strategy for linking the data. For example, Research Organization will provide program data for participating students, including enough identifying information to link them unambiguously to student identification numbers. The Stanford Data Manager will return these data associated with scrambled student identification numbers. Please specify which fields will be used to link records (e.g., email addresses; students’ names and birthdates; etc.).

ATTACHMENT B: LIST OF STAFF WITH ACCESS TO SFUSD DATA

Please list the names of all staff members affiliated with the research project who will have access to the data provided under this Agreement.
